

Jordan Avery

Senior Software Engineer

jordan.avery@example.com | (555) 010-4477 | Austin, TX

SUMMARY

Backend engineer with nine years building payment and identity systems at scale. Comfortable owning a service end to end, from schema design through on-call.

EXPERIENCE

Staff Software Engineer, Northwind Payments

March 2021 - Present

- Led the migration of the settlement ledger to a sharded design, cutting p99 write latency from 840ms to 95ms.
- Designed an idempotency layer that eliminated duplicate captures.
- Mentored four engineers, two of whom were promoted to senior.

Senior Software Engineer, Cobalt Health

June 2018 - February 2021

- Built a FHIR ingestion pipeline handling 40 million records per day.
- Reduced infrastructure spend 31 percent by rightsizing Kubernetes workloads.

EDUCATION

University of Illinois at Urbana-Champaign, BS Computer Science, 2016

SKILLS

Go, TypeScript, Python, SQL, Kubernetes, Terraform, AWS, Postgres, Kafka
